You can, therefore, afford to WILL COUNCILS CONFIRM CAPT. KING?

Through, Then the Latter Will, by Virtue of His Office, Be Placed at the Read of the Department-Capt. King says He WIII Still Act as Chief

This question was asked of Captain

is sent to the Councils Tuesday night

iich position he has been filling for
veral months very acceptably to the

Now, it will be remembered that the blice Roard also sent in the names of zeond Assistant Chief John W. Ladd be First Assistant Chief, and First regeant George I. All of the nomations were confirmed by the Common aucil, but when the matter came bere the Select Council Mr. Rolland, of the Fourth Ward, raised an objection Captain King, and even went so far to say that if necessary he would ing charges against the Captain at the next meeting to show that he is not proper person to hold the position, he matter of confirmation then went cer to next Tuesday night, when the gular meeting of the Select Council ill be held.

From the tone of Mr. Rolland's remarks it looks as it a light will be made

Should this action be taken there
all be a greater complication in the

one to light, for Captain Ladd will be
first Assistant Chief, and by wirthe of

#### Two Ladies Badly Prightened

Yesterday aftermoon between 4 and 5 o'clock, while two married ladies were riding along the Church-Street road, near the City Park, a burly negro man suddenly appeared in the road from the woods and stopped them, at the same time making indecent exposures.

The ladies became frightened and made an alarm, and whipping their horse made their escape. About this time a well-known citizen of the county rode up, and finding that semething was wrong drove to the point where the negro had returned to the woods, where he was joined by three gentlemen from the city. The party then attempted to arrest the negro, who took flight and made good his escape. The whole affair occurred at a point in the road which is constantly travelled, and the wonder is the man should have been so laring. Neither of the gentlemen who tried to capture the negro was armed. Agreat many negroes, and occasionally tramps, pass down this road and those in the vicinity, and ladies cannot be too careful in taking such drives without escorts. It is often the case that young ladies on bicycles take this roats for an outing. The Virginian wishes to say that the practice is dangerous, and should not be continued.

Having become despondent over his mability to obtain employment, a young German butcher yesterday morning put an end to his life under circumstances somewhat sensational, on the premises of Mr. William Proceeder, in Campostella, a short distance from the city, and for several hours his body laid out in the open air.

It was about 7 o'clock yesterday morning when Mrs. Proceeder heard a pistol shot in the woods near her house, but as pistol shots are frequently heard in the piciphorhood no astention was paid to it, and it was not until Mr. Proceeder returned from his business in the city market that the body of a young man who had been hiving with Mr. Proceeder for two months was found, with a bullet in the brain.
